EDUCATION

Kennesaw State Univeristy

January 2018 - May 2021
BA - Digital Animation
GPA - 3.45 | Cum Laude

Aspiring UI/UX designer previously studied in fine arts, passionate about expressing my creative visions through clean and visually appealing user interfaces.

PROJECTS

80's Player

80's themed mobile music player app

First project done under CareerFoundry's UI intensive course. Applied the fundamentals and principles of mobile design to create the layout for a music player application.

Tools - Adobe XD , Photoshop

Easyrecipes

Responsive recipe web app

Created a responsive web application with the focus of providing quick and simple recipes to follow with minimal ingredients. Also experienced the Lean UX method of conducting user research.

Tools - Adobe XD , InVision , UsabailityHub

UltiMerch

Responsive e-commerce web / mobile app

Final project under CareerFoundry. Designed a native web application with the focus on selling official merchandise from a variety of popular videogame franchises. Also added screen designs for a companion iOS and Android mobile app.

Tools - Adobe XD , Photoshop, InVision
